

# LITES

ADVANCED LIGHTING CONTROLS

## SUMMIT

# CALL FOR PRESENTATIONS

MAY 15, 2018  
NextEnergy | DETROIT

NextEnergy is currently seeking submissions for presentations at the LiTES Advanced Lighting Controls Summit, to be held on May 15, 2018 at NextEnergy in Detroit. This full day event will feature a half day of presentations and case studies focused on the features and benefits of the latest advanced lighting controls technology. There will also be an opportunity for attendees to participate in a DesignLights Consortium-led (DLC) advanced lighting controls technology training session, and a chance to learn how to take advantage of exclusive advanced lighting controls incentives offered by utilities.

## AUDIENCE PROFILE

The Summit will attract up to 150 professionals who will come to learn about the features and benefits of advanced lighting controls. Attendees will leave with the information and resources needed to install or deploy their own projects.

- Building owners/managers
- Architects/engineers/designers
- Lighting designers
- Electrical contractors
- General contractors
- Lighting/energy consultants

## GUIDELINES FOR SUBMISSION

To submit your ideas, please complete the online application [here](#).

**Deadline for submission:** March 23, 2018

**Notification of acceptance:** By April 13, 2018

**Final presentations due:** May 4, 2018

**Accepted formats:** Presentation, case study, panel, moderated discussion, poster presentation

## TOPICS OF INTEREST

- Case studies on the benefits of advanced lighting controls systems including improved efficiency, energy saved, return on investment, and lessons learned
- Cybersecurity
- Lighting controls as they relate to smart building technology
- Lighting controls technology overview and options
- Overview of installation process
